FOUNDATION
DIRECTORY ONLINE

Foundation Directory Online is a powerful online tool that helps you access over 140,000 accurate, comprehensive foundation profiles. The database includes corporate giving programs, public charities, companies, international data, and key decision makers and leaders of foundations. If you've ever scoured a foundation's IRS 990 form for particulars, then you will find the quick, keyword search of 990s very helpful. You can also search grant information including recipients, descriptions of awarded grants, and types of funding support.

Multiple filters and the assessment tool can help you quickly identify your best potential funding sources. For example, if you have specific areas of interest, say "art education," "visual arts," and "children and youth," then you would get results of over 33,000 grant makers for those interests.
