LOGIC MODEL FOR (INSERT YOUTH PROGRAM NAME HERE)

Program Outcome Statement: A brief statement of ultimate purpose

INPUTS	[Оитритѕ			Youth Outcomes - Impact		
		Program Activities	Youth Participation	'	SHORT (LEARNING)	MEDIUM (ACTION)	Long (Conditions)
The resources you will bring to the program. One approach is to focus on things that are quantifiable so that you can calculate return on investment later.		What you are actually doing	Who are your target participants, and what is the nature of their participation?		What changes in youth knowledge or skills do you expect to see at the end of your program?	What changes in youth behavior (i.e. outcomes) do you expect to see as a result of these changes in knowledge?	What are the aspirational, long-term changes to which your work contributes?

Assumptions

What are you assuming to be true in order for your model to be true?

External Factors

What are the known factors that can influence your success, over which you have little or no control?
